

**As the year is quickly coming to an end we would like to thank you for your partnership and wish you a very Happy Holiday and a prosperous New Year!**

**SBI Software is more than just a tool. We are a highly skilled part of your team, dedicated to helping you drive results and revenue.**

We understand the struggle of staff turnover, the expense of onboarding, and a constant change within the industry. SBI's suite of tools provides a stable platform you can rely on.

Our software is better than ever, and we are working hard to increase predictability of when features will be released. We have brought on additional team members and are focused on creating a one-stop-shop for your business.

**Did you know that our app offers shareable analytics?** You can gain visibility with Analytics BI of all critical metrics and share it with all the right team members to drive the team. You can only improve what you measure and you gain the most if you make it visible to the entire team.

### Team Member Spotlight - Aaron Allison

As a Co-founder, Aaron has been with SBI since the beginning....April 1, 2001. (No Joke!)

While Aaron has worn many hats over the years, he is currently SBI's head of sales. His leadership has helped SBI software grow to manage over \$2.5 billion in client sales per year.

Aaron focuses on what he loves the most and what has made SBI successful from the beginning: Interacting with clients to 'grow' their business!

*"Teaching clients how to be the most efficient, while still getting accurate inventory visibility is my thing. My favorite part of the business is Client Contact and working with great people, who have built great businesses."*

Thanks, Aaron!

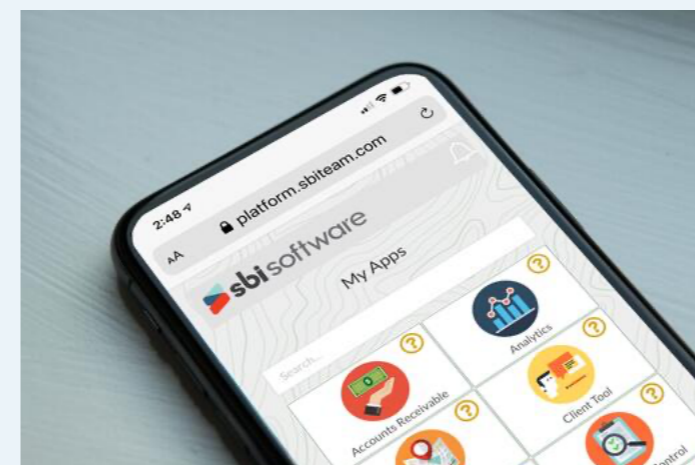

### Weekly Maintenance

#### Scheduled Every Tuesday

Maintenance may occur between 6pm and Midnight local time every Tuesday. Downtime is expected to be two hours or less.

### Access Anywhere

Access SBI on your desktop, mobile device, tablet and more!

If you have questions, visit our [Live Chat](#) or create a case via the [Client Tool](#) and our support team will be there to help!

**Reminder:** Weekly maintenance is scheduled every Tuesday. Maintenance may occur between 6pm and Midnight local time. Downtime is expected to be two hours or less.
